PRESIDENT'S MESSAGE

' Education is the most powerful weapon we can use to change the world.'

It is the matter of pride to pen down the message for the school magazine. My heart fills with immense pleasure as I perceive the progress being made at B. R. J.P. English Medium School. The entire purpose of education is not to restrict itself to imparting bookish knowledge only but inculcate humanitarian values like wisdom, compassion, courage, humility, integrity and reliability in a student. We believe in holistic education for a children, encompassing academics, co-curricular activities, sports and life-skills learning. Our endeavour is to strike a balance between the state of the art infrastructure.

I extend my warm wishes to the Principal, Staff members and students to continue the journey on the road to excellence.

- Mr. Hemantbhai J. Desai

FROM PRINCIPAL'S DESK

Learning is not a process limited to schools and colleges only nor does it end with the conclusion of one's school career. It is indeed a lifelong process. We are focused to the total orientation of a child and to adaptations of various methods suiting the dynamics of changing world in order to achieve common goals and objectives. It is further characterized by shared vision and responsibility and above all faith in oneself in order to achieve these goals.

*We strive hard to inculcate rational thinking, analytical power, deep insight of observation so that innovative creativity can be explored from the students. We are determined to develop self-reliant strong individuals by conducting and organizing various curricular and co-curricular activities. Here an effort has been made to co-ordinate several efforts by presenting in the form of **' ENDEAVOUR' 16th Edition.***
